

How to Prepare

- Choose outfits that fit your personality and make you feel attractive!
- Keep your clothing simple, we want the focus to be on your face.
- Consider a variety of fashion styles: formal, trendy and every day.
- It's a good idea to wear at least one outfit that is "classic" and will never go out of style.
- Solids, subtle prints, earth tones and long sleeves make the best portraits.
- Try to avoid lighter colors, tight fitting tops and horizontal lines.
- Bring a lot of clothes from a prom dress to your favorite t-shirt and jeans.
- Think twice about a radical change in style right before your session.
- Sunburn and tan lines are not pretty, so stay out of the sun and tanning bed for a few days.
- Pimples should not stress you out... all Senior Packages include FREE retouching!
- Give a haircut a couple of days to relax and grow out. Your hair style is ultimately up to you, but we suggest you wear it the way you normally do. Quick hair-do changes are a fun way to show your different styles, but keep it simple. We want you in front of the camera, not the mirror.
- Drink lots of fluids, especially water, to help improve your skin texture.
- Make sure that your clothes are ironed.
- Clean and trim your nails. If you're going to get a manicure or pedicure, have it done the day before your session.
- Get everything ready the night before your session.
- One of the best ways to organize is to put everything on one hanger for each outfit. Put all the accessories (jewelry, belts, hats, shoes, etc.) in a plastic bag and hang it on the hanger.
- Girls should wear makeup as you normally do, just slightly heavier. If you don't normally wear makeup, use the basics: concealer to even your skin tone, powder to help with unwanted shine, and lip gloss for a finishing touch.
- Eat something before you leave for your session. Our lights get warm and there is nothing worse than feeling faint!
- Come dressed to our studio in one of the outfits you plan to be photographed in.
- Plan to arrive a few minutes early so you can relax before your session begins.
- Enjoy your session... have fun and be yourself!
